## Stress, gender and psychopathology

Kuipers, Sjoukje Daouia

**IMPORTANT NOTE:** You are advised to consult the publisher's version (publisher's PDF) if you wish to cite from it. Please check the document version below.

### *Document Version*

Publisher's PDF, also known as Version of record

### *Publication date:*

2004

[Link to publication in University of Groningen/UMCG research database](#)

### *Citation for published version (APA):*

Kuipers, S. D. (2004). Stress, gender and psychopathology: a multi-level analysis. s.n.

### **Copyright**

Other than for strictly personal use, it is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), unless the work is under an open content license (like Creative Commons).

### **Take-down policy**

If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

Downloaded from the University of Groningen/UMCG research database (Pure): <http://www.rug.nl/research/portal>. For technical reasons the number of authors shown on this cover page is limited to 10 maximum.

## PUBLICATIONS

1. Kuipers S.D\*, Trentani A\*, te Meerman G.J., ter Horst G.J., Den Boer J.A. (2003) Immunohistochemical changes induced by repeated footshock stress: revelations of gender-based differences. *Neurobiology of Disease*, **14**, 602-618. (\*co-first author)
